| <b>3f.</b> If applicable, what type of accommodations are provided to ensure that English Learners and/or Students with Disabilities can fully access the content represented by the task or set of items reviewed? <b>Provide an explanation of your response.</b>  | 3.f. None provided, but easily adaptable. |          |
| Accommodations are commonly categorized in five ways: presentation, response, setting, and timing and scheduling:  o Presentation Accommodations — Allow students to access information in ways that do not require them to visually read standard print. These alternate modes of access are auditory, multi-sensory, tactile, and visual.  o Response Accommodations — Allow students to complete activities, assignments, and assessments in different ways or to solve or organize problems using some type of assistive device or organizer.  o Setting Accommodations — Change the location in which a test or assignment is given or the conditions of the assessment setting.  o Timing and Scheduling Accommodations — Increase the allowable length of time to complete an assessment or assignment and perhaps change the way the time is organized.  o Linguistic Accommodations — Allow English language learners (ELLs) to access academic construct measured by reducing the linguistic load of an assessment. The accommodation is based on an ELL's limited English language proficiency, which is different than an accommodation based on a student's disability or a cognitive need. |   |          |

3g: Are there adequate accommodations permitted for this assessment? Provide an explanation of your response. Accommodations could easily be provided.
