How to use the Assessment Review Tool

Content Area: Math	
Name of Assessment: ACCDA Grade 5 Form 4	
Reviewer: Content Collaborative	
Date of Review: October 24, 2012	

Assessment Profile	
Item Types - check all that apply (note: there is often overlap among certain item types): Selected Response (multiple choice, true-false, matching, etc.)	Check All That Apply
Short Answer (short constructed response, fill in a graphic organizer or diagram, explain your thinking or solution, make and complete a table, etc.)	X
Extended Response (essay, multi-step response with explanation and rationale required for tasks) Product (research paper, editorial, log, journal, play, poem, model, multimedia, art products, script, musical score, portfolio pieces, etc.) Performance (demonstration, presentation, science lab, dance or music performance, athletic performance, debate, etc.) Process (creation, development, design, exploration, imagining, visualization, experimentation, invention, revision)	х
The assessment includes:	Check All That Apply
Teacher directions (may include prerequisites/description of instruction before giving the assessment e.g., this assessment should be given after students have learned) Scoring Guide/Rubric Sample evidence to show what student performance might look like Materials (if needed to complete the assessment)	X X
Estimated time for administration	
Student Directions & Assessment Task/Prompt – what does the student see/use? Other: Online/Offline Options	X X

A high quality assessment should be...Aligned

GR.5-S.1-GLE.3-EO.ai; MA10-GR.5-S.4-GLE.2-EO.c; MA10-GR.5-S.3-GLE.1-EO.ai; MA10-		
GR.5-S.3-GLE.1-EO.aii		
Indicate the intended DOK range of the Grade Level Expectations: 1-2		
Indicate the intended DOK of the assessment (list DOK levels): 1-2		

1b. Describe the content knowledge/concepts assessed by the set of items or the performance task: Write and interpret numerical expressions; analyze patterns and relationships; Understand the place value system; Use equivalent fractions and strategie to add and subtract; Apply and extend previous understanding of multiplication and division to multiply and divide fractions; Represent and interpret data; Geometric measurement of volume; Graph points on a coordinates plane to solve real world math; Classify two dimensional figures into categories based on their categories; Perform operations with multi digit whole numbers and with decimals to hundredths. Math practices addressed: 1,2,6,7		
1c. List the skills/performance assessed: Estimation; Locate points on coordinate plane; Reading; Vocabulary; Line plotting; Computation 1d. To what extent do you see a strong content match between the set of items reviewed	t i	
or the task and the corresponding Colorado Academic Standard/s? Use the definitions below to select your rating.		
 □ Full match – all tasks or items fully address or exceed the relevant skills and knowledge described in the corresponding state standard/s. □ Close match – most tasks or items address the relevant skills and knowledge described in the corresponding state standard/s. □ Partial match – many tasks or items partially address the skills and knowledge described in the corresponding state standard/s. 		
 Minimal match – some tasks or items match some relevant skills and knowledge described in the corresponding state standard/s. 		
■ No match – task or most items are not related to the skills and knowledge described in the corresponding state standard/s. Please provide evidence from both the standards and assessment to support your response: The assessment directly aligns to the GLEs		
response. The assessment unectly aligns to the GLLS	Full Match=5; Close Match=4; Partial Match=3; Minimal Match=2; No Match= 1	
Aligned to Colorado Academic Standards Rating		
	Rating Column	
1e . Are the set of items or tasks reviewed as cognitively challenging as the grade level expectations? Use the definitions below to select your rating.		
 ■ More rigorous – most items or the tasks reviewed are at a higher DOK level than the range indicated for the grade level expectations. ■ Similar rigor – most items or the task reviewed are similar to the DOK range indicated for the grade level expectations. 	Ł	
□ Less rigor – most items or the task reviewed are lower than the DOK range indicated for the grade level expectations.		
Please provide evidence from both the grade level expectations and assessment to support your response: The rigor of the GLE is a similar rigor to the assessment due to the expectation of recall and reproduction skill and concept. For example #8 a question on comparison the rigor is a DOK 2. The matching GLE for comparison is also a DOK2. This alignment of DOK is clear throughout the assessment.

A high quality assessment should be...Scored using Clear Guidelines and Criteria

Scoring Guide Present	Check all that apply:	Comments
□ Answer key, scoring template, computerized/machine scored	X	
☐ Generalized Rubric (e.g., for persuasive writing, for all science labs)		
 Task-Specific Rubric (only used for the particular task) 	X	
□ Checklist (e.g., with score points for each part)		
□ Teacher Observation Sheet/ Observation Checklist		

	Rating Column
2a.Does the rubric/scoring criteria align to Colorado Academic Standards in this assessment. Provide an explanation of your response: #21 and #22are constructed response accompanied with a task specific rubric directly aligned to the CAS. All the other tasks/answers directly align to CAS. It is basically a multiple choice assessment.	Yes=3, Somewhat=2, No=1
Rubric Aligned to Standards Rating	3
2b. Are the score categories clearly defined and coherent across performance levels? Provide an explanation of your response: On the rubric provided for the two constructed response questions, the score criteria's are clearly defined and coherent. On the multiple choice questions students are scored either right or wrong. The assessment provides no guidance on determining level of overall proficiency.	Yes=3, Somewhat=2, No=1
Rubric/Scoring Coherent Rating	1
2c. To what degree does the rubric/scoring criteria address all of the demands within the task or item? Provide and explanation of your response. This is primarily a multiple choice assessment.	High=3, Moderate=2, Low or None=1
Rubric/Scoring Aligned with Task Rating	3
2d. Based on your review of the rubric/scoring criteria, do you think the scoring rubric would most likely lead different raters to arrive at the same score for a given response?	Yes=3, Somewhat=2, No=1
Rubric/Scoring Different Raters Same Rating	3
2e. Is there student work (e.g., anchor papers, video, portfolio) which illustrates student mastery? If so, describe. If not, what student work would be needed? Examples of possible student proficient answers are provided for the two constructed response questions, but actual student work is not provided.	Yes=3, Somewhat=2, No=1
Student Work Samples Rating	1

A high quality assessment should be...FAIR and UNBIASED

FAIR and UNBIASED (the areas below should be discussed relative to the needs of ELLs, gifted and talented students, and students with disabilities)	Rating Column	Comments
3a. To what extent are most of the items or the tasks designed and formatted to be visually clear and uncluttered (e.g., use of white space, graphics, and illustrations)? Provide an explanation of your response: The tasks avoid clutter and there is enough white space when students need to show work. The graphics and illustrations are useful and clear when used.	High=3, Moderate=2, Low=1	
Clear & Uncluttered Rating	3	
3b. To what extent are most of the items or the task presented in as straightforward a way as possible for a range of learners? Provide an explanation of your response: Text is straightforward and adequate space is provided to work the problems. Lines are provided for students to write their responses.	High=3, Moderate=2, Low=1	
Straight Forward Rating	3	
3c. To what degree is the vocabulary and context(s) presented by most of the items or task free from cultural or other unintended bias? Provide an explanation of your response: All directions and prompts are free from cultural bias.	High=3, Moderate=2, Low=1	
Free of Cultural or Unintended Bias Rating	3	
3d. Does the assessment use appropriate levels of academic language for the grade and content area? Provide an explanation of your response. Academic language included is common and not out of the scope of a fourth grader.	Yes=3, Somewhat=2, No=1	
Academic Language Rating	3	
3e. Does the assessment limit the usage of words that can be confused with one another (homonyms)? (Examples: ate/eight; sell/cell; allowed/aloud; beet/beat; by/buy).	Yes=3, Somewhat=2, No=1	
Confusing Language Rating	3	
*Please reference "Defining Features of Academic Language in WIDA's Standards" (http://wida.us/searchResults.aspx?cx=0001878867407992537742:bjkids4qwcy&cof=FORID:10&q= Defining%20Features%20of%20Academic%20Language) 3f. If applicable, what type of accommodations are provided to ensure that English		
Learners and/or Students with Disabilities can fully access the content represented by the task or set of items reviewed? Accommodations are commonly categorized in five ways: presentation, response,		
setting, and timing and scheduling: o Presentation Accommodations —Allow students to access information in ways that do not require them to visually read standard print. These alternate modes of access are auditory, multi-sensory, tactile, and visual.		
o Response Accommodations — Allow students to complete activities, assignments, and assessments in different ways or to solve or organize problems using some type of assistive device or organizer. o Setting Accommodations — Change the location in which a test or assignment is		
given or the conditions of the assessment setting. o Timing and Scheduling Accommodations —Increase the allowable length of time to complete an assessment or assignment and perhaps change the way the time is organized.		
o Linguistic Accommodations—Allow English language learners (ELLs) to access academic construct measured by reducing the linguistic load of an assessment. The accommodation is based on an ELL's limited English language proficiency, which is different than an accommodation based on a student's disability or a cognitive need.		
3g: Are there adequate accommodations permitted for this assessment? Provide an explanation of your response: Although the assessment does not specifically address accommodations, it can be inferred that many accommodations can be utilized. There is a presentation accommodation for almost every questions due to the fact that most problems include a drawing or picture to aid with understanding. A setting accommodation is also present due to the availability to either computer or paper and pencil. Time is not specified which would allow for a time accommodation.	Yes, Some identified=2; None identified =1	

A high quality assessment...Increases Opportunities to Learn

A nigh quality assessmentIncreases Opportunities to L		
Opportunities to Learn	Rating Column	Comments

Not Recommended	

Although the content standards are widely covered in this assessment, a gap in performance and a low attention to mathematical practice will make it difficult for teachers to understand the depth of knowledge the students have obtained.
